EXPERIENCE

OCTOBER 2023 – x

CONTRACTUAL PhD STUDENT RITM-BFC, UNIVERSITY OF BURGUNDY, IREDU (DIJON)

Subject of the thesis: “New forms of evaluation of systems and policies in education”.

Year 2024-2025: support for the organization of IREDU research seminars in collaboration with two other PhD students.

DECEMBER 2022 – SEPTEMBER 2023

TRAINING AND E-LEARNING DEVELOPMENT MANAGER, LA CHARTREUSE HOSPITAL CENTER (DIJON)

Administrative management of training courses offered to medical and non-medical professionals outside the Hospital Center; Creation of a name and logo for the Training Organization in collaboration with the communications department; Organization of the National Adolescent Home Days conference (approximately 650 registrations to manage); Preparation and completion of the Qualiopi surveillance audit; Business canvassing to expand outside the hospital environment; Management of a call for tenders to train ambulance drivers on the management of patients in psychological distress.

TRAINING

SEPTEMBER 2022

MASTER 2 CONSULTANT ADVISOR TRAINING MANAGER, DENIS DIDEROT INSTITUTE, UNIVERSITY OF BURGUNDY (DIJON)

Very good mention / Four-month internship in the vocational training of the French Union of Holiday Centers: leading training activities; reflecting on educational processes; co-leading and observing training activities; participating in trade fairs to inform young people about the diplomas offered; responding to calls for tender.

JUNE 2021

MASTER 1 TEACHING, EDUCATION AND TRAINING PROFESSIONS EDUCATIONAL SUPERVISION COURSE, NATIONAL HIGHER INSTITUTE OF TEACHING AND EDUCATION

Very good mention / Two internships mainly of observation with Principal Education Advisors, one in a high school for fifteen days and the other in a middle school for twenty days.

JUNE 2020

BACHELOR'S DEGREE IN EDUCATIONAL SCIENCES, HIGHER ESTABLISHMENT OF TEACHING AND EDUCATION

One internship per year: one of 15 days with a primary school teacher; another of fifteen days with a Education Advisor in middle school; a final one of fifteen days with a Education Advisor in middle school as well.

ADDITIONAL TRAINING

SEPTEMBER 2024

FUN TRAINING, REPRODUCIBLE RESEARCH: METHODOLOGICAL PRINCIPLES FOR TRANSPARENT SCIENCE

This Mooc addresses in a practical way themes such as note-taking, computational document, and the replicability of analyses. It lays the foundations for reproducible research and explains how to use the right tools:

- Markdown for structured note taking;
- Git and Gitlab for version tracking and collaborative work;
- Notebooks (Jupyter, RStudio or Org-Mode) to efficiently combine computation, representation and data analysis.

JULY 2024

FUN TRAINING, ARTIFICIAL INTELLIGENCE FOR AND BY TEACHERS

This training on artificial intelligence for teachers and the entire educational community was developed and tested at European level in 5 countries: France, Ireland, Italy, Luxembourg and Slovenia.

This training has several levels of objectives:

- Demystifying and understanding AI;
- Experiment and make good use of digital educational resources with AI services;
- Contribute to the development of digital skills among all teachers and students that include an ethical dimension beyond the technical or regulatory aspects of AI.

MARCH 2024

FUN TRAINING, WRITE AND PUBLISH A SCIENTIFIC ARTICLE

Writing a scientific article is not intuitive and the rules of publication are often implicit. However, this is how research is built, in a collective of shared knowledge that is constantly expanded through publications. Whatever the discipline, publishing is essential for a scientist today. To make their work visible and disseminate new knowledge on the one hand, or on the other hand to guarantee the authorship of a result, obtain funding for their research, or even develop their employability and evolve throughout their career.

FEBRUARY 2024

FUN TRAINING, RESEARCH ETHICS

Science is a central value of our democratic societies, which promote the desire for knowledge of the world and of man. Nevertheless, new technoscientific performances and the acceleration of innovations are sometimes frightening. Furthermore, the scale of the resources mobilized, a regime of international competition and conflicts of interest between private and common good also give rise to a crisis of confidence. How can we assume our responsibilities as citizens and researchers at a personal, collective and institutional level?

JANUARY 2024

FUN TRAINING, RESEARCH INTEGRITY IN RESEARCH PROFESSIONS

Information on the challenges of scientific integrity, warning of the mechanisms that can lead to failures, encouragement to develop a sense of responsibility and to behave as a watchdog for scientific integrity.

DECEMBER 2023

SHS DATA WEEK

- “Sensitive data: Anonymization or Pseudonymization?”
- “Data management plans in SHS: interest of the DMP and advantages of the DMP OPIDoR tool”
- “Promoting research data in the SHS: Deposit and Dissemination of data on PROGEDO”
- “Sensitive engineering: for whom, for what and how?”

JANUARY 2023

MOODLE TRAINING, ENOVATION, UNIVERSITY HOSPITAL CENTER (DIJON)

Learning how to use the Moodle platform to provide technical support for the development of e-learning at the La Chartreuse Hospital Center.

COLLOQUIUMS AND CONFERENCES

SEPTEMBER 25-27, 2024

Five years of transformations in Higher Education, NCU 2024 COLLOQUIUM (CHAMPS-SUR-MARNE, FRANCE)

Round table communication "Evaluation of NCU devices and impact monitoring".

JULY 9-11, 2024

RITM'ez vos innovation pédagogiques, RITM-BFC 2024 COLLOQUIUM (CLUNY, FRANCE)

Communication in the workshop "Innovations in the evaluation of policies and systems in education".

JULY 2, 2024

18th Meeting of the International Francophone Research Network in Education and Training, DOCTORAL STUDENTS' DAY (FRIBOURG, SWITZERLAND)

Round table communication "New forms of evaluation of policies and systems in education".

SKILLS

- Driving license B
- BAFA Diploma
- B2i IT
- Level B1 in English
- Organized
- Cooperative
- Curious
- Motivated

ACTIVITIES

- Practice of running and sport.
